Angelica Gonzalez ’18,
Supply Chain Management & German Logistics Specialist, Mercedes-Benz Vans

"It wasn't till my last semester of junior year that I realized I wanted to minor in German. It took only one German class to convert me! As a major in Supply Chain Management I knew that I would have a competitive edge in the business industry by adding the German language to my resume. As an employee at Mercedes-Benz Vans, I hear the German language spoken around me all day and everyday. When I'm able to use my German skills at the office I have surprised many people. I would highly encourage business students to consider German as a second major or minor!"
