

**Inga von Seelen**

Vice President, supplier management Product Group NAFTA Hub USA  
Mercedes-Benz U.S International, Inc.

Inga von Seelen is the Vice President of the Product Group NAFTA Hub USA for Mercedes Benz U.S. International, Inc. (MBUSI), which is the production location for the GLE-, GL- and the GLE Coupe sport utility vehicles as well as the C-Class for the U.S. and Canadian market. MBUSI in 2017 celebrates 20 Years of Production in Alabama.

Inga von Seelen joined the MBUSI Team in February 2016 and manages a team responsible for part localization, research and development, purchasing, material engineering as well as supplier quality and capacity management.

She started her career with Continental AG in Hanover, where she worked in several departments, including Central Brand Management, Investor Relations and Marketing and Sales in South Africa. She joined Daimler AG in 2008, where she was product manager for tires. She has held various purchasing positions with increasing responsibility within the Daimler AG before bringing her talents to MBUSI.

In 2014, she was promoted to department leader for the vehicle line management purchasing and supplier quality of the GLK-, C-Class, E-Class, and S-Class before she started building up the NAFTA HUB at MBUSI in Vance as Vice President.
